RECENT EXPERIENCE

CASA, LLC

Head of Security | 2020 - Present

Protected company assets, employees, and IT systems, including securing over \$4B USD in Assets Under Protection (AUP) consisting of customer funds, corporate treasury, and cryptocurrency holdings. Implemented comprehensive cybersecurity training programs, including Yubikeys and GPG usage, and acted as the Data Protection Officer (DPO), managing GDPR data requests and third-party breach notifications. Implemented security reviews and third party vendor management.

STONER CONSULTING, LLC

Owner and Operator | 2018 - 2024

Provided expert guidance on cybersecurity measures to numerous clients, helping them safeguard their digital assets and infrastructure. Led a team of consultants in conducting comprehensive security audits, vulnerability assessments, and implementing robust security protocols.

SHAPESHIFT AG

Senior Security Engineer | 2018 - 2020

Performed security analysis and penetration testing of blockchain technologies and reviewed source code for vulnerability assessment and best practice integration. Managed multiple projects and workflows using tools like Atlassian JIRA and Confluence and responded to high-profile security incidents, including the recovery of over \$1M USD in stolen funds. Chaired multiple committees, including an Access Review Committee and a Responsible Disclosure Board, and acted as Master of Key Generation Ceremonies.

SOCKETLABS, INC.

Director of Infrastructure and Security | 2015 - 2017

Managed Infrastructure and Security teams while effectively handling departmental planning, budgeting, and goal execution. Negotiated key business relationships with vendors and high-profile customers. Developed and implemented Security Incident Response Plan in line with NIST standards, conducted regular security audits, and enhanced infrastructure through automation and the use of various security tools.
